Require users to submit for authorization in order to obtain write to removable media privileges. Initial processing of OPDIR 0247-21 and OPDIR 0480-21 requires all users who are currently utilizing write to removable media capabilities to be added to the 1<sup>st</sup> Network Battalion whitelist in order to maintain this ability. If your device has not been whitelisted, you will receive a McAfee Data Loss Prevention pop-up that states "You have plugged in an unauthorized removable storage device into a MCEN computer system. Please contact your local ISSM for details." If the external storage device is not whitelisted, users will lose the ability to write to the device once the McAfee Data Loss Prevention policy is implemented. ## WEEKLY SPECIAL SPEEDCALL LOG

\*\*\*\*\*

### DELAYED PROCESSING OF OUTBOUND OFFICIAL MAIL.

For several weeks now, the processing of outbound regular, non-registered official mail aboard the Combat Center has been delayed due to a shortage of funding on the Endicia postal machine. We are working with local system support experts for iProcurement and Wide Area Work Flow to execute an electronic fund transfer (EFT) and replenish the military postal account with the U.S. Postal Service. We anticipate having this issue resolved soon. In the meantime, units needing to send registered and/or urgent official mail must contact SSgt McDougal, Base Postal Chief at 830-7399 or email at dominique.mcdougald@usmc.mil.

### MAGTF-TC / MCCES planners;

Until further notice the MAGTF-TC G-6 KMI Vault will be closed due to unforeseen circumstances. We are working to resolve the issue. Estimated time of resuming normal operations is Wednesday 8 June.
